Badri ADHIKARI

Dr. Adhikari is an associate professor in the Department of Computer Science at the University of Missouri-St. Louis (UMSL).

His research interests include education, health and bio informatics, explainable machine learning.

He has published dozens of papers in journals such as Education Sciences, Scientific Reports, Bioinformatics, Plos ONE, and BMC Genomics. He is the author of the widely used protein 3D modeling tool CONFOLD.

His research is funded by the University of Missouri-St. Louis (UMSL), NVIDIA, Google Cloud Credits, the U.S. National Science Foundation (NSF), and the National Aeronautics and Space Administration (NASA).

At UMSL, he enjoys teaching Deep Learning, Artificial Intelligence, and Interpretable Machine Learning. His favorite course to teach is Data Visualization.
